## Data Analytics and Business Intelligence Intern

Currently enrolled in my last year of **Master's Degree**. I am looking for a **data analytics and/or business intelligence** internship. It would be an **end of studies internship** that would start on **february 2022** for **6 months**. Thanks to my academic background and my experiences I can deal with operational and technical fields.

## Skills and technology

- Data cleaning
- Data analysis
- Web scraping
- Modelling
- Object oriented programming
- Supervised learning

Python	Data analysis, Data scraping, Machine learning, OOP programming... ; (Pandas, Numpy, Matplotlib...)
SQL	SQL Server, SQLite ; Queries, Stored procedures ; Connection with applications
Power BI	Automated reporting ; DAX measures
Excel , VBA	Data analysis ; Automated reporting ; Creation of applications
SSRS	Automated reporting
MDX	Queries in OLAP cube ; Extractions in Excel
Git	Personal projects hosting on Github

## Experience

### Data Analyst | Hays France & Luxembourg | 2<sup>nd</sup> gap-year internship | Paris | 07/20 – 12/20 :

Participated to a large-scale IT project : Transformation of a key business unit in all France and Luxembourg offices (22 offices). Had to work hand-in-hand with front and back offices, technical and operational managers and directors (including C-levels) :

- Worked with the **SCRUM** method
- Participated to the elaboration of functional needs.
- Programmed **SQL Server** procedures and **SSRS** automated reporting with a BI engineer.
- Made several data analysis with **Excel**, **VBA** and **PowerBI** on demand.
- Organised meetings with managers and directors in order to present ideas or the project progress.
- Participated to functional acceptance.

**What I learned** : Communication, Programming, Data management, Project management.

### Account manager | Hays France & Luxembourg | 1st gap-year internship | Paris | 01/20 – 06/20 :

First immersion in the IT domain. Worked in the IT recruitment business unit on various jobs (Developers, Business Analysts, Project managers, BI engineers, Cybersecurity engineers...) for the account of various sectors and sizes companies (Retail, Insurance, Transportation...) :

- Business development.
- Customer relationship management.

**What I learned** : Business understanding, Communication.

**My website and personal projects** : <https://portofolio-gab-ebaa.herokuapp.com/>
